

SpellAnywhere has a revolutionary approach that motivates, builds self-esteem and improves reading, spelling and writing skills. The online software is packed with spelling lists and flash cards designed to make learning fun and raise confidence.

This programme is an invaluable support for any child's education, providing positive, independent learning.

SpellAnywhere is a fun new way for pupils to learn and practice their weekly spellings.

Using a simple online interface, teachers can set up a spelling test in minutes which pupils can then access from home.

The spelling test can be embedded into your school website, which not only makes it more convenient for pupils, but also generates more visits to the site.

- Teachers create weekly spelling lists online
- Pupils practice spellings online
- Unlimited license for all pupils and teachers
- Spelling lists can be linked to your website
- SpellAnywhere can be used for language learning

Visit Crowdy Hill school in Wiltshire to see how effective SpellAnywhere is when embedded in your school website
